### MOVIE MADNESS

**T**HAT MAKES no difference whether it is the mother or the tree who holds me, the small messenger boy who comes to deliver the telegram every one seems to be curious about our living in the movie world.

There is not one young girl out of ten who isn't ambitious to find out whether she would look well on the screen or not, and most of the young girls have the sneaking idea that they would make splendid heroines in the paper story that is shown at the moving picture theaters.

The girls in big cities who in their youth would have envied even the atmosphere of the stage, come daily to the studios ambitious to play mother or grandmother parts. And many old men who had sold their daughters or even sons of far as to claim them because they had talked of the studio fallen in love with an actress come brimming to the studios eager to be the day-old wife of grandmothers of the present.

Actresses going their tenth time, and even ladies four or five weeks old still offered at so much per week that they almost won the screen to the place of the real family life.

It has swept the country like a whirlwind; this desire to be successful, this desire of most of the active young boys and girls to become stars in a field which already is a star-tale heaven on earth. It is because they know so little of the field where the endless months and sometimes years of waiting before they can even make their way.

Very few girls enter into the life with the idea that they are going to remain professional extra girls but all hope to reach heights which will take them away from the unhappy drudgery.

A girl comes out once, photographed well, but she often is interested in more than just success. I have known many thousands of ambitious girls who will in my eyes be broken by the formula of success. They must she know how to adapt and adjust herself to her environment.

And here is another note to the young girls who must get away from herself and let her own individuality and originality into the spirit of the girls who are playing supporting parts to dominate the hearts and souls of the public. This is the secret to success.

Hundreds of girls have given up their positions in stores and offices to try their luck at this great game of excitement, and many have fallen by the wayside, disappointed.

Many beautiful society girls have asked if I could not find some small bit of them to play, and I would prefer the idea of a studio to the social duties which are perhaps as strenuous but to them more monotonous.

The other day at the hotel I complimented one of the bellboys upon his intelligent service, and remarked that the hotel was lucky to have one who seemed to so enjoy doing his duty.

"But I don't think you duty," Miss Elizabeth, he said, and then I knew he was coming. He wanted to know if I considered him for position as a moving picture actor. He was sure, if I found him good, that Mr. Charles Chaplin would be pleased.

So I have come to the conclusion that half the world is looking through two-colored glasses upon this great moving picture industry of ours and seeing the whole half of it usually engaged in making pictures?

### Answers to Correspondents

Marie D. — "Whether you are to be represented at the present time I believe that will be possible at some future time."

John H. — "Those can be your friends. I will send you my address to send to the newspaper in the near future."

Jessie H. — "I do not know where you could get a list of all the photo-presses. To tell, I think it would be impossible."

James R. — "I never heard of the photo-press company you mention, but the employes' names are given in the photo-press charge for a late payment."

## TOMORROW

\$3.50 Thirteen-Piece Set \$1.98  
of English Graniteware.

It is durable quality, fine old English graniteware never sold for less than \$1.50 before a small number of complete sets that we purchased over a year ago before the prices on imported goods took such a jump. Each of the thirteen are standard size, practical utensils the kind you need almost every day. Chances are, only the first early shoppers will get all there is of these sets.

## Hints for Housekeepers

SPRING SALAD.

Spring Salad—One head lettuce, one bunch of radishes, and one bunch of young onions, a handful of carrots. Wash all the vegetables and shake dry in a clean napkin. Line the dish with the outer leaves of the lettuce, cut the radishes in thin slices, the onions in lengthwise strips and lay over the leaves, then pile them lightly in the dish, leaving inner leaves of the lettuce and adding to the rest cut the whites of two hard boiled eggs in rings and garnish the edge from the colts through a sieve in the center of the dish, and pour over all three tablespoons of lemon juice, season with dash of red pepper and a little ground nut. The absence of heavy dressing makes this salad very

*Mary Pickford.*

### CAKE RECEIPT.

One scant cup sugar, and one beaten tablespoon of butter, heat, then add six eggs well beaten, one-half cup sweet milk, one cup flour, one-half cup granulated sugar, two rounded tablespoons baking powder, one-half teaspoon vanilla, beat all together until thin and smooth like a moderate oven, then let it stand a while. This is an excellent recipe for cake.

Pineapple Mousse—Boil together for twenty minutes one quart water, two cups of sugar and a pint of canned sliced pineapple, adding just before removing from the fire a scant ounce of gelatine dissolved in a little cold water. Allow the mixture to cool, but not stiffen and then whip to a froth with egg-beater, adding the juice of two oranges, one lemon and a cup of Italian meringue, pour into individual tin molds with close covers and pack in refrigerator ice and salt for three or four hours, turn out on round of angel cake that has been spread with a slightly tinted jelly.

Revelations of a Wife  
Being the Confessions of an Average Married Woman  
by Adele Garrison

What Happened on the Eventful Morning of the First Day's Outing.

I packed Tuesday morning, nervous and with a feeling that something momentous was going to happen. I remembered having a similar sensation years before when, as a child, I appeared on a boat that morning. Then I reached for the prospect of fun and pleasure, and I did.

What in blazes! Dick's examination had started and other customers mingled. What did you seem, Katie? I asked for a light reading.

On this occasion I was too nervous to speak. I had no time to speak outside on the platform, because I had to go into the station, and I told him again, "I want to see what Dick says."

Then the girls quaked. I was too nervous to speak. I had no time to speak outside on the platform, because I had to go into the station, and I told him again, "I want to see what Dick says."

Dick—Pall Mall Poetry. To tell the truth we prepared most have been highly individual. Dick had nothing to do with it. He had no place to go.

What on earth are you on, Dick? I asked him again, "I want to see what Dick says."

—I looked up. Dick. I woke at 5 o'clock and I could not make myself sleep till that. Then I thought I'd see what the weather was. I was so afraid it might be bad so we couldn't go.

You must be quite interested in the weather, too, Katie.

On Dick's way out, I saw him looking at me. I asked him, "What do you think?"

—Well, I'll try to give you the best time we can.

I know you will. What shall I wear? Anything, as it's warm and comfortable. Be sure to wear sensible shoes.

I have a coat that I know will do. These are made to go in the car.

—Dick, you can't know how I am trying to make you know.

—I give them to me now, what you do with them. I take my bath. Well, that's all right.

—You must be quite interested in the weather, too, Katie.

—Oh, Dick, you can't know how I am trying to make you know.

—Well, I'll try to give you the best time we can.

I know you will. What shall I wear? Anything, as it's warm and comfortable. Be sure to wear sensible shoes.

I have a coat that I know will do. These are made to go in the car.
